HIDES OF EXCELLENCE

REINDEER HIDE

HANDLE WITH CARE

This genuine reindeer hide is a sustainable, natural product. It is a by-product of the meat industry, tanned under strict European Union guidelines, free from harmful chemicals.

Due to the delicate nature of reindeer fur, it is designed for decorative use only. Avoid placing the rug in areas of high foot traffic or excessive rubbing, which may snap the fibres from the skin backing.

We recommend spot cleaning, using a soft damp wet cloth with fresh water. Do not submerge in water or apply any chemicals or detergents. Allow to air dry in the shade.

Keep the hide out of the direct sunlight and off any direct heat source. Heat will dry and damage the backing of the hide, resulting in shedding of the fur.
